## 1. Executive Summary

This report details the outcome of the Annual Performance Assessment (APA) conducted on Bauchi State for the 2020 year of the four-year SFTAS Program. In conducting the APA, the verification team assessed how the State performed against the Disbursement Linked Results (DLRs) listed within the SFTAS DLI Matrix, guidelines, and verification protocol.

**Table 1** (below) reflects the outcome of the 2020 APA for Bauchi State and shows areas where the State was able to achieve results. Bauchi State achieved 11 (Eleven) DLRs out of 15 DLRs applicable to the 2020 APA while 3 (three) DLRs were achieved in 2019 and 2018 APA.

We further identified several areas where the State can improve its performance, and these are set out in detail within Section 3 of this report. In summary, the State should ensure the following:

- DLR 2.2: Evidence of dissemination events to explain amendments to the State annual budget is published online along with the Citizens' budget based on the Amended State budget.
- DLR 3.0: The State should consider ensuring its financing and borrowing arrangements do not include conditions that mean it is unable to implement a TSA or deploy appropriate cash management strategies.

4.3. DLR 6.2: e-Procurement should be implemented as soon as possible. Contract award information, above the set threshold, should be published online every month in OCDS format on the State's website. Implement e-procurement in all MDAs and publish contract award information in the OCDS format on the online portal for the MDAs.

5.4. DLR 9: Strengthened debt sustainability by achieving the levels of debt indicators that are below the thresholds established for this DLR. z

The Office of the Auditor-General for the Federation (OAuGF) as Independent Verification Agent and PricewaterhouseCoopers (PwC) agree on all the results shown in this report.

## 2. Introduction

---

### 2.1 Overview

The Federal Government of Nigeria is implementing a four-year program to support the Nigerian States to strengthen fiscal performance and sustainability: The State Fiscal Transparency, Accountability and Sustainability (SFTAS) Program for Results (“The Program”).

The original Programme design had four Key Result Areas and nine disbursement-linked indicators with a financing agreement of US\$750 million. Following the advent of COVID-19 in 2020, the Programme was adapted to establish a transparent, accountable, and sustainable fiscal framework to enhance States’ fiscal capacity to respond to the Pandemic. The main change brought about in the restructuring was the addition of new COVID-19 responsive DLIs to the Programme and obtaining additional financing of US\$750 million to ensure results were sustained across the remaining performance years. This brought the total financing for the SFTAS Programme to US\$1.5 billion and increased the DLIs to 13 (thirteen) and the Disbursement Linked Results to 22 (twenty-two). The Program will finance activities under two components: (i) a Program for Results (PforR) component for US\$1.45 billion and (ii) a Technical Assistance (TA) component for US\$50 million.

All States can participate in the Program in each of the four years and benefit from the PforR funds by meeting set Eligibility Criteria and any or all the indicators of fiscal transparency, accountability, and sustainability.

The Auditor-General for the Federation was appointed as the Independent Verification Agent (IVA) for the SFTAS Programme and PricewaterhouseCoopers (PwC) was subsequently engaged to support the IVA. Both parties have worked together to assess the performance of the State against the Disbursement Linked Results (DLRs) for 2020.

To ensure a high-quality assessment, the IVA engaged the services and had some input/support from the Debt Management Office (DMO) for Debt Management related DLIs to review the returns in place at this State.

### 2.2 Scope

This Annual Performance Assessment (APA) Report covers the State’s performance in 2020 against the Disbursement Linked Results (DLRs) listed within the SFTAS DLI Matrix, guidelines, and verification protocol. Each State was earlier assessed against the Eligibility Criteria set in the protocol, to determine the state’s eligibility for grants under the 2020 APA.

The verification protocol was set early in the preparation for the Program and all States, implementing agencies and other key stakeholders have been continuously sensitized on the requirements of the program and the protocol for 2020. The assessment results are binary (Pass or Fail), as that is how the Program for Results was designed.

In advance of the performance assessments, all States were provided with the detailed information requirements for the assessments, a proposed itinerary for the assessment visit, and a template with which to report the results achieved. The assessments were conducted between (07/02/2022 and 12/02/2022) with a team of 6 persons, starting with an opening meeting where all the information requested was to be handed over. The visits were concluded with an exit meeting where initial findings were discussed, and each state was given a further opportunity to provide clarifications and/or additional information.

The draft conclusions from the work done were reported to the State and this final report takes account of the State’s comments on the draft results, as shown in Section 4..

The Office of the Auditor-General for the Federation (OAuGF) and PricewaterhouseCoopers (PwC) are grateful to the State for the cooperation enjoyed during the assessment and hope the recommendations within this Report are

found valuable towards improving fiscal transparency, accountability, and sustainability in the management of the public finances and resources of the State.

		e) Bauchi State has implemented the processes described in the cash management strategy to forecast cash commitments and requirements. The evidence obtained is the cash flow projection.		
3	Does the TSA have a system of cash management that allows for a central view of cash balances in bank accounts on a single electronic dashboard (based on the approved cash management strategy)?	<p>The State has a computer application where it views the cash balances in the bank account(s).</p> <p>a) The computer application is NIBSS PAY, and it is produced by Nigeria Inter-Bank Settlement System (NIBSS) Plc.</p> <p>b) The computer application is in line with the approved Cash Management Strategy.</p> <p>c) It was deployed on January 25, 2020.</p>	Satisfactory	
4	Does the TSA have one consolidated revenue treasury account for State revenues? Revenues collected by MDAs such as service fees no longer sit in individual MDA accounts at different commercial banks but are brought into the consolidated revenue account as part of the TSA.	<p>a) IVA deployed questionnaires at the ministries of Education, Health, and Works. The Director of Finance and Accounts (DFA) provided answers to the questions. We also interviewed the DFA and the revenue desk officer on their payment processes. The findings from the test reveal that payment for the MDAs levies, etc. is made to the State IGR Lead Account, from where it is swept to the TSA. The ministries do not receive cash payments and do not have revenue accounts.</p> <p>b) Bauchi State TSA (FAAC Account): Bauchi State Consolidated Revenue Fund (CRF-TSA) Account; United Bank for Africa (UBA); 1018793263.</p> <p>c) IVA ascertained that all government monies go through this account.</p> <p>d) Government monies do not sit in other revenue collecting banks.</p> <p>e) The TSA bank Statement was obtained.</p>	Satisfactory	
5	Does the TSA cover a minimum of 70% of the State Government's finances?	The IVA computed the total cash inflow and outflow from the TSA account against the total government finances inflows and outflows as contained in the Cashflow Statement for the year ended 2020.	Unsatisfactory	The State should consider ensuring its financing and borrowing arrangements do not include conditions that

		entirety of the State’s Capex from TSA is inconsistent with the purpose of the DLR. The Capex has been excluded on the basis that it is all funded through loans from banks that will not permit their funds to flow through the State TSA. This means the State is unable to implement a functioning TSA due to its borrowing arrangements. The result is therefore not achieved.

#### 4. Response from the State

The State should please use the table below for their response.

S/N	State Response to the draft report	IVA Follow-up, response, treatment
1	<p><b>DLI 1: Improved Financial Reporting and Budget Reliability</b></p> <p>Budget summary has been provided as requested as per attached. The report can also be accessed via the state's website via the following link: <a href="https://www.bauchistate.gov.ng/wp-content/uploads/2022/06/2020-Budget-Performance-Final.pdf">https://www.bauchistate.gov.ng/wp-content/uploads/2022/06/2020-Budget-Performance-Final.pdf</a></p>	<p>This has been noted and considered for this DLI</p>
2	<p><b>DLI 2: Increased openness and citizen's engagement in the budget process</b></p> <ol style="list-style-type: none"><li>1. The Bauchi State's Citizens Budget Template was completed in line with the required IVA verification protocol.</li><li>2. The DLI matrix did not mention the observation by the IVA, and it was not mentioned in the requirement.</li><li>3. However, we took time to illustrate all the required information using charts and budget statistical tools based on the approved template.</li></ol> <p>In view of the above, we kindly request you to consider your earlier position and award the DLI to us as satisfactory.</p>	<p>The Verification Protocol Version 8 requires that</p> <p>“ The form and general content of the amended citizens' budget shall clearly explain the key changes between the original FY20 budget and the amended budget, including data on reallocations and adjusted spending priorities.”</p> <p>This was mentioned in Page 26 under the heading of Citizens Budget in the <i>Definition/Description of DLR achievement column</i>.</p> <p><b><i>Based on this, the IVA initial stand still holds.</i></b></p>

3	<p><b>DLR 3: Improved cash management and reduce revenue leakages through the implementation of the state's TSA.</b></p> <p>States among others that the state TSA should cover a minimum of 70% of the Government Finances and your comment that the State's TSA did not cover the minimum of 70%. We wish to respond as follows:</p> <ol style="list-style-type: none"> <li>3. That this issue was raised by the IVA during the verification exercise.</li> <li>4. We attended to the issues raised by the IVA and agreed based on the following computations.</li> </ol> <p>The IVA computed the total cash inflow and outflow from the TSA account against the total government finances inflows and outflows as contained in the Cashflow Statement for the year ended 2020.</p> <p>See the computation below:</p> <table border="1" data-bbox="233 459 852 643"> <thead> <tr> <th></th><th>Total Inflows</th><th>Total Outflows</th></tr> </thead> <tbody> <tr> <td>TSA Bank Statement</td><td>54,532,836,001.15</td><td>53,679,181,983.54</td></tr> <tr> <td>Government Finances*</td><td>103,221,241,406.11</td><td>111,081,834,404.7</td></tr> <tr> <td>Percentage</td><td>53</td><td>48</td></tr> </tbody> </table> <p>The average percentage computation is:</p> $\frac{53\% + 48\%}{2} = 51\%$ <p>The TSA covered 51 % of the State's finances.</p> <p>*Sources: 2020 Audited Financial Statement (Cashflow Statement) Pgs.1-2 and the TSA Statement from (Bauchi State Consolidated Revenue Fund (CRF-TSA) Account: 1018793263) for (The statement covered January 1 to December 31, 2020)).</p> <p>An APA issue report was raised by IVA for the State to explain the material difference between cash inflows and outflows in the cashflow Statement of FY 2020 AFS and TSA. The State, in a response, claimed as follows:</p> <p>RESPONSE:</p> <p>The discrepancy was as a result of the following factors:</p> <ol style="list-style-type: none"> <li>A) The ISPOs Deduction at the source makes the state to receive NET FAAC</li> <li>B) SFTAS Grants and others World Bank (External Loan) Domiciled at the specific Bank for specific projects</li> <li>C) Housing Loan (Domestic Loan) is Domiciled with Specific Bank as Guarantee for the Loan</li> </ol>		Total Inflows	Total Outflows	TSA Bank Statement	54,532,836,001.15	53,679,181,983.54	Government Finances*	103,221,241,406.11	111,081,834,404.7	Percentage	53	48	<p>It appears the State has entered into multiple banking arrangements that mean it cannot achieve the minimum level of TSA usage set by this DLR.</p> <p>Note that it is at the State's discretion to enter into banking arrangements that prevent it from having a functional TSA. This is what the State has done.</p> <p>The result should be assessed as Not Achieved.</p>
	Total Inflows	Total Outflows												
TSA Bank Statement	54,532,836,001.15	53,679,181,983.54												
Government Finances*	103,221,241,406.11	111,081,834,404.7												
Percentage	53	48												

2) The Total Outflow in our AFS is N111,081,834,404.85 while the TSA total debit is N53,679,181,983.54

The sum of N111,081,834,404.85 in our AFS is the combination of the State's recurrent expenditure of N71,666,624,926.63 and Capital Expenditure of N39,415,209,478.22.

Based on the above, the actual outflow is N71,666,624,926.63 while the capital expenditure is being financed with loans and these loans accounts are domiciled with other Banks that granted the loans, and could not be captured in the TSA account.

Please find the attached document for more details

However, IVA obtained and retained the attached documents.

In view of the above response, IVA raised a second APA issue report for the state to substantiate the above claims with documentary evidence to aid further consideration.

The State responded with the requested documents. IVA further obtained and retained the documents as evidence.

Based on the documents provided, IVA adjusted the cash inflow and outflow reported in the cash flow Statement and recomputed the percentage as presented below::

	Total Inflows	Total Outflows
TSA Bank Statement	54,532,836,001.15	53,679,181,983.54
Government Finances*	76,483,917,820.97	71,666,624,926.63
Percentage	71	75

The average percentage computation is:

$$\frac{71\% + 75\%}{2} = 73\%$$

The TSA covered 73 % of the State's finances.

Find attached relevant documents too support our claim and calculations.

In view of the above, you are kindly requested to reconsider your earlier position and award a satisfactory verdict to us.

**DLI 5: Biometric Registration and Bank Verification Number used to reduce fraud**

The State's submission is acceptable by the IVA and the report has been updated appropriately.

	<p>1. The 1023 ghost workers that were detected in 2020 were as a result of a discovery that some of the workers have overstayed due to falsification of age and therefore removed.</p> <p>2. It was also discovered that some workers presented false documents.</p> <p>3. It was also revealed that some were illegally brought into the payroll as replacement for dead or retired workers.</p> <p>4. Another reason is that other workers were removed due to abscondement.</p> <p>The list and the details of the report is hereby attached.</p>	
5	<p><b>DLI 6: Improved procurement practices for increased transparency and value for money</b></p> <p>1. Published Contract awarded information in now provided in the OCDS format as attached.</p>	IVA reviewed the additonal information attached and still found it to not have met the requirements for the DLR.
6	<p><b>DLI 8: Improved clearance /reduction of the stock of domestic expenditure arrears</b></p> <p>1. A total of N4,008,623,116.42 was reduced out of the total debt stock of 10,008,742,273.91, representing about 40% as at December 2020.</p> <p>2. The process of reduction involved series of verifications, validations and payments.</p> <p>3. Some of the payment vouchers are hereby attached as evidence to represent so many others.</p>	IVA reviewed Payment Vouchers provided by the State and has accepted the State's submission. The report has been updated appropriately.
